

WATER

Cruises on Lake Lugano

Locked in by mountains whose forests make their way down to the shore, Lake Lugano, differently from Lake Maggiore, prides itself of its untamed look. The beautiful panoramas already fascinated travelers of the *Grand Tour* who couldn't miss the traditional boat tour. The first steamer to sail the lake's waters was the "Ticino" in 1848. Today, a network of modern boats offer a wide choice of cruises and the possibility of reaching the region's main attractions by lake, including: Gandria, Morcote, Swissminiatur, the San Salvatore funicular and the Monte Generoso cogwheel railways.

SCENIC VIEWS

Monte Tamaro

Straddled over the Lugano and Locarno regions, Monte Tamaro offers a spectacular 360° view over a large chunk of Ticino's territory, encompassing the lakes (of Lugano and Locarno) with the valleys that surround it, the region of Bellinzona, the Malcantone and their mountains. To get there, first climb up to Alpe Foppa (1,530 m, cable car from Rivera). Then continue on foot to the summit (1,962 m, approximately an hour and 30 min. walk). The Alpe Foppa, with a varied offer of physical activities, the restaurant and the cultural and environmental area, is a recreational and entertainment destination even for families.

TREKKING

Ritom – Piora

The Alpine landscape of the Piora Valley, rich in green pastures in bloom with scattered little lakes, is one of the most idyllic in Ticino. The flora and fauna of these vast and silent spaces are of great interest. It is still possible to encounter eagles, chamois, roe deer, groundhogs, red frogs and admire the beautiful blossoming of gentians, buttercups, arnica and wild orchids. You can get there with one of Europe's steepest funiculars that leaves from Piotta. Extremely numerous are the signposted trails that cross the region and are of various difficulty and length. We recommend two of them.
