

WATER

Cruises on Lake Lugano

Locked in by mountains whose forests make their way down to the shore, Lake Lugano, differently from Lake Maggiore, prides itself of its untamed look. The beautiful panoramas already fascinated travelers of the *Grand Tour* who couldn't miss the traditional boat tour. The first steamer to sail the lake's waters was the "Ticino" in 1848. Today, a network of modern boats offer a wide choice of cruises and the possibility of reaching the region's main attractions by lake, including: Gandria, Morcote, Swissminiatur, the San Salvatore funicular and the Monte Generoso cogwheel railways.

SCENIC VIEWS

Monte Tamaro

Straddled over the Lugano and Locarno regions, Monte Tamaro offers a spectacular 360° view over a large chunk of Ticino's territory, encompassing the lakes (of Lugano and Locarno) with the valleys that surround it, the region of Bellinzona, the Malcantone and their mountains. To get there, first climb up to Alpe Foppa (1,530 m, cable car from Rivera). Then continue on foot to the summit (1,962 m, approximately an hour and 30 min. walk). The Alpe Foppa, with a varied offer of physical activities, the restaurant and the cultural and environmental area, is a recreational and entertainment destination even for families.

PARKS

Pro Natura Lucomagno Centre

The Lukmanier is undoubtedly one of Ticino's most beautiful regions and also one of the authors' favored places. At the heart of a hiker's paradise, the environmental association Pro Natura has revived a 1980's initiative meant to favor a harmonious relationship between man and nature. The Pro Natura Lucomagno Centre, situated in a beautiful mountain scenery, is equipped with room, board and offer a rich cultural program. It is an ideal starting point to explore this outstanding alpine park, where rare plants and flowers appear every summer.
