

VILLAGES

Morcote

Thanks to its location between lake and mountains, to a centre characterized by porticos, to its churches and chapels and to a park with the likes of a little paradise, Morcote has won the title of "the nicest village of Switzerland 2016". Located on the banks of Lake Lugano this inviting destination, which is also called "pearl of the Ceresio", was once a fishermen's village with houses facing the lake and porticos once used to shelter boats. It was also home to skilled artisans and artists who found their fortune far from their country but that also knew how to leave a trace of their genius in their homeland.

SCENIC VIEWS

Monte Generoso

Monte Generoso is probably the most panoramic mountain in the Canton of Ticino. For over 130 years, visitors have been accessing its summit via a cogwheel railway. After reaching an altitude of 1,704 metres, you can enjoy a breathtaking view over Lake Lugano and the Alps. The view stretches from the Gran Paradiso to Monte Rosa, from Cervino to the Jungfrau, from the Gotthard mountain range to that of Bernina. Perched on top is the spectacular "Fiore di pietra" (Stone Flower) complex, designed by Swiss architect Mario Botta. Inaugurated in Spring 2017, it houses two restaurants and a panoramic terrace.

TREKKING

Bavona Valley

Bavona Valley, which branches off from the Maggia Valley, is characterized by its wilderness. To this day it is deprived of electricity and populated only during the summer. The magic of nature combined with the work of mankind has bestowed peace and harmony to this valley, one of Ticino's most beautiful. Consisting of extremely high cliffs and remains of colossal landslides it is also one of the steepest and rockiest valleys of the entire Alpine region. An enchanting walk that goes through twelve villages, including Foroglio with its spectacular waterfall, allows the visitor to appreciate its charm.
