

SCENIC VIEWS

Monte Tamaro

Straddled over the Lugano and Locarno regions, Monte Tamaro offers a spectacular 360° view over a large chunk of Ticino's territory, encompassing the lakes (of Lugano and Locarno) with the valleys that surround it, the region of Bellinzona, the Malcantone and their mountains. To get there, first climb up to Alpe Foppa (1,530 m, cable car from Rivera). Then continue on foot to the summit (1,962 m, approximately an hour and 30 min. walk). The Alpe Foppa, with a varied offer of physical activities, the restaurant and the cultural and environmental area, is a recreational and entertainment destination even for families.

WATER

Cruises on Lake Lugano

Locked in by mountains whose forests make their way down to the shore, Lake Lugano, differently from Lake Maggiore, prides itself of its untamed look. The beautiful panoramas already fascinated travelers of the *Grand Tour* who couldn't miss the traditional boat tour. The first steamer to sail the lake's waters was the "Ticino" in 1848. Today, a network of modern boats offer a wide choice of cruises and the possibility of reaching the region's main attractions by lake, including: Gandria, Morcote, Swissminiatur, the San Salvatore funicular and the Monte Generoso cogwheel railways.

TREKKING

Tibetan Bridge of Curzútt

This four-hour walk in the hills along the right bank of the Ticino River, in the region facing the Magadino Plain, does not only offer a beautiful scenery, but also boasts several points of interest. The thrill of crossing one of the longest Tibetan bridges in Switzerland (270 metres); the discovery of the Romanesque church of San Bernardo, featuring a number of beautiful frescoes of 14th and 15th century; a visit to the old and beautifully restored housing cluster of Curzútt, testifying to the time when daily life mainly revolved around hillside activities.
