

TREKKING

Hill of Carona

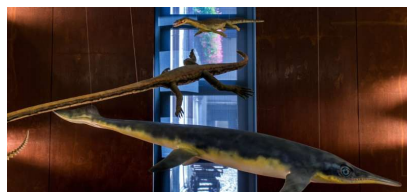

A big park in bloom, beautiful views of the Lugano Bay. Silence of the woods facing Lake Lugano and a few pleasant stops shaded by outstanding monuments. The walk that from Carona leads to Alpe Viciania (a pasture) and back, offers a new insight into Ticino's green and silent side. Green like the fields of Alpe Viciania where horses graze free. Silent like the narrow alleys of Carona rich in history including the ancient sanctuary of the Madonna d'Ongero adorned by stuccoes and baroque frescoes or the 13th century Torello Monastery.

MUSEUMS

Museum of Fossils Monte San Giorgio

Discover the charm of a lost world of over 200 million years ago. The Museum of fossils of Monte San Giorgio presents the important paleontological heritage of the region, which is considered one of the most important fossil deposits in the world and registered as a UNESCO World Heritage Site. The fossils of San Giorgio are famous for their variety and their exceptional state of preservation. The exhibit is meant for a vast public and thanks to multimedia technologies, it allows even non-experts to immerse themselves into the complex world of the Triassic.

EXPERIENCE

Bellinzona's Market

It is not necessary to travel to faraway exotic places to unearth animated and colorful markets whose roots date from ancient times. You can find many such examples in Ticino and in nearby Italian villages of Lombardy and Piedmont. The Ticino's most interesting one is without doubt the Bellinzona market held on Saturday morning. It is located in the streets of the historic centre of this authentic Ticino town where residents still enjoy meeting each other and having a chat in front of the stands offering the regional products; just like in the past.
